King gave a roads update. Blades are out in all districts, and rock is being hauled in various locations. There are two mowers out. Spray patching will resume when the weather clears up. There is shoulder work taking place on M48. There is a lot of maintenance taking place due to the weather. The Braddyville culvert construction continues. The annual report was submitted to the DOT last week. King is still working on the final numbers for the EWP work. King talked with Tim Tieg regarding the reasoning and factors for the higher cost of the administration building. King would like to set the building projects aside, complete some prep work, and then move money over to use for new equipment. King would like to purchase a new motor grader instead of using it for a new building. King believes he can purchase a new motor grader for less than \$300,000. Morris asked if instead this extra money could be shifted to pay for the EWP projects. Morris stated he would like to see the EWP project amounts first before a decision is made. D Avenue was discussed, and it was requested that the road be paved. Dustin Fast and Will Forsythe were in to discuss the Page-Montgomery Road. Forsythe stated the road needs to be ground up again. He, however, does not want it to remain gravel. King states they will grind it up and rock it. Then in 2020 or 2021 they will seal coat it. Donny Nelson called and stated it has been five weeks, and he has not heard anything from King.

Morris stated he met with the preschool board last Thursday. The preschool would like to stay through May of 2020. The preschool was surprised public health needs to move as fast as they do. Lauren McNees met with the board and stated it would be best to stay through the end of May.

On a motion by Morris, the board moved to approve the minutes of September 10, 2019.

With no further business, the Board adjourned at 9:45 AM and will meet again Tuesday, September 17, 2019.
